Market Price Share (₹)	52	75	

ICL's Land & Buildings are stated at current prices. SVL's Land & Buildings are revalued three years ago. There has been an increase of 30 per cent per year in the value of Land & Buildings.

SVL is expected to grow @ 18 per cent each year, after merger.

ICL's Management wants to determine the premium on the shares over the current market price which can be paid on the acquisition of SVL.

#### **PMC**

You are required to determine the premium using:

- (i) Net Worth adjusted for the current value of Land & Buildings plus the estimated average profit after tax (PAT) for the next five years.
- (ii) The dividend growth formula.
- (iii) ICL will push forward which method during the course of negotiations?

Period (t)	1	2	3	4	5
FVIF(30%, t)	1.300	1.690	2.197	2.856	3.713
FVIF(15 %,t)	1.15	2.4725	3.9938	5.7424	7.7537

(b) USD 10,000 is lying idle in your Bank Account. You are able to get the following quotes from the dealers:

Dealer	Quote	
Á	EUR/USD 1.1539	-> b/€
В	EUR/GBP 0.9094	-> 5/€
C	GBP/USD 1.2752	> 1/是

Is there an opportunity of gain from these quotes?

(c) Side Pocketing enhances the value of the Mutual Fund. Do you agree?

Briefly explain the process of side pocketing.

11:1

#### **PMC**

You, as an Investment Manager, is required to suggest the best course of option.

(b) The following are the details of three mutual funds of MFL:

Balanced Regular Market Growth Fund Fund Fund 9 5 6 Average Return (%) 40.96 54.76 57.76 92.16 Variance 0.9604 0.6561 0.3025 Coefficient of Determination

8

The yield on 182 days Treasury Bill is 9 per cent per annum

You are required to:

- (i) Rank the funds as per Sharpe's measure.
- (ii) Rank the funds as per Treynor's measure.
- (iii) Compare the performance with the market.
- (c) In an efficient market, technical analysis may not work perfectly. However, with imperfections, inefficiencies and irrationalities, which characterises the real world, technical analysis may be helpful. Critically analyse the statement.

An investor is considering to purchase the equity shares of LX Ltd., whose current market price (CMP) is ₹ 112. The company is proposing a dividend of ₹ 4 for the next year. LX Ltd. is expected to grow @ 20 per cent per annum for the next four years. The growth will decline linearly to 16 per cent per annum after first four years. Thereafter, it will stabilise at 16 per cent per annum infinitely. The investor requires a return of 20 per cent per annum.

## You are required

- (i) To calculate the intrinsic value of the share of LX Ltd.
- (ii) Whether it is worth to purchase the share at this price.

Period	100 mg	2.	3,	4 、	5, ,	6	7,
PVIF(20%,n)	0.833	0.694	0.579	0.482	0.402	0.335	0.279

(b) The Management of a multinational company TL Ltd. is engaged in construction of Infrastructure Project. A proposal to construct a Toll Road in Nepal is under consideration of the Management.

The following information is available :-

The initial investment will be in purchase of equipment costing USD 250 lakhs. The economic life of the equipment is 10 years. The depreciation on the equipment will be charged on straight line method.

EBIDTA to be collected from the Toll Road is projected to be USD 33 lakhs per annum for a period of 20 years..

To encourage investment Nepalese government is offering a 15 year term loan of USD 150 lakhs at an interest rate of 6 per cent per annum. The interest is to paid annually. The loan will be repaid at the end of 15 year in one tranche.

The required rate of return for the project under all equity financing is 12 per cent per annum.

Post tax cost of debt is 5.6 per cent per annum.

Corporate Tax Rate is 30 per cent.

All cash Flows will be in USD.

Ignore inflation.

You are required to advise the management on the viability of the proposal by using Adjusted Net Present Value method.

Given

PVIFA (12%, 10) = 5.650, PVIFA (12%, 20) = 7.469, PVIFA (8%, 15) = 8.559, PVIF (8%, 15) = 0.315

(c) Distinguish between Pass Through Certificates (PTC) and Pay Through Securities (PTS).

OR

Differentiate between Economic Value Added (EVA) and Market Value Added (MVA)
